

Advarra CIRBI Version 2026.6.1

May 25, 2026

In this release, we've resolved the following issue:

Submission Activities and Forms

- When a submission has 50+ contacts or team members, you can now view the full contact list in a single list view in applicable submission activities and forms (such as the Edit Contact and Notifications activity or the Contact Information submission form). Previously, lists exceeding 50 users weren't displayed in full. (CRB-28050)
