

CIRBI Release Highlights

Version 2026.10.1

Released August 12, 2026

This document includes high-level information about key changes in this release. Note that this is not a comprehensive list of all changes made in the release; instead, we've focused on new features that are available and other changes that might impact users.

In this release, we've introduced the following changes:

Submission Actions

Display Investigator Invitation Date

We've added a Date Notified column to the Invite Investigators activity to display the date an invitation was sent. (CRB-29561)

Submission Forms

Informed Consent Form Phone Number Extensions

We've added phone number extension fields to the Informed Consent Form section of site and single-site protocol submission forms. (CRB-29559)

Safety Event Lead-In Form Update

We've modified the Safety Event Lead-In Form to add questions that ensure compliance with the December 2025 FDA guidance pertaining to sponsor and investigator safety reporting. For additional information, refer to the **[2] Tip Sheet - IND Safety Reporting (v02 July 2026).pdf** tip sheet, available in the Reference Materials section in CIRBI.

Protocol Continuing Review Questions/Transfer of Oversight Summary Status Updates

We've updated several questions on the Protocol Continuing Review Questions and Transfer of Oversight Summary Status sections of submission forms to remove unnecessary response options and streamline the submission process. (CRB-29808, CRB-29814, CRB-29836, CRB-30066, CRB-30004)

Update Regulatory Inspection Records

We fixed an issue impacting certain site submissions that prevented users from being able to edit a principal investigator's regulatory inspection records on the Regulatory Inspection Information section of the submission form. (CRB-29925)

Submission Workspace

Migrated PI Details

The PI Profile Link on migrated site submission workspaces now displays the principal investigator's name as expected. Previously, this might have been missing for certain submissions. (CRB-30059)

Filter Submission History Records

You can now filter Submission History records by activity, author, and date. (CRB-29847)
